Science Project Competition

Science Project Competition

Discover the Wonders of Science: Explore, Innovate, and Inspire!

Description: Science is not just facts and figures; it's a journey of exploration and understanding. DPGITM is organizing a Science Project Exhibition for young innovators. Through this event, we celebrate the boundless curiosity and creativity of young scientists, where minds meet to explore, innovate, and inspire. This exhibition is a testament to the power of science in shaping our future. Students from various schools will present their projects, which cover a wide range of topics from cutting edge technology like robots and artificial intelligence to the environment, biology, chemistry, and physics.

Parameters to judge the competition:

• Content Originality/ innovation
• Creative Ability / Research Ability
• Scientific Methodology/ Engineering or Design Goals / Societal Benefits
 • Skills / Tools Used
• Teamwork/ presentation skill

Date: 4th November, 2023
Place: DPGITM Campus
Theme: Projects should align with one of the recognized scientific disciplinest

Guidelines for the Participants:

1. All participants must carry their school ID Cards for the purpose of verification at the Registration Counter.

2. All participants must ensure to reach DPG Institute of Technology & Management, Gurugram on 4th November, 2023 by 9 am.

3. The participating teams need to prepare and bring the hard copy of Poster as per the registered project in Vigyan Utsav- 2023. Kindly refer to the attached format for the poster for your reference please (Height = 3 Feet, Width = 2 Feet, Portrait Orientation). Please adhere to the headings mentioned in the Poster format.

4. Each project is assigned with unique Project ID at the time of receiving the entry. The Project ID will be shared through mail on the registered mail ID.

5. Please bring your own charged Laptop(s) / Power Cable(s) / Connecting Wire(s) / Any other Hardware / Software(s) required for the display of your project. All participants must ensure to share their requirements in details such as no. electric points etc.

6. In case the project display requires an outdoor space / ground floor space due to its large size and capacity then the participant needs to inform the undersigned with detailed requirements latest by 26 th October 2023.

7. Participating schools will be responsible for arranging transportation for their students to and from the event location.

Innovation Idea Presentation

Innovative Idea Presentation

Unleash Your Innovation at Vigyan Utsav: Rules and Guidelines for Innovative Idea Presentations

Are you ready to make a difference and solve real-world problems with your groundbreaking ideas? Vigyanutsav is the platform for you! This exciting event at DPGITM welcomes all students to present their innovative solutions to pressing global issues. To ensure a fair and engaging experience for all participants, here are the rules and guidelines:

1. Participation Requirement

   - Every student is invited to participate and present an innovative idea.
   - The idea should address a real-world problem and offer a practical solution.
   - Group presentations are not allowed; each student must present individually.

2. Presentation Time

   - Each student will have a maximum of 10 minutes to present their idea.
   - This time limit encourages participants to be concise and impactful in their presentations.

3. Idea Presentation Format

  - Participants are expected to follow a structured format for their presentations. This typically includes:
    - Problem Statement: Clearly define the real-world problem you're addressing.
    - Solution Description: Explain your innovative idea and how it tackles the problem.
    - Implementation Plan: Detail how you intend to implement the solution.
    - Expected Impact: Share the potential impact and benefits of your idea.
    - Q&A: Be prepared to answer questions from the judges and the audience.

4. Judges and Prizes

- A panel of experienced judges will evaluate the presentations. - Exciting prizes will be awarded to the most innovative and impactful ideas.
  - Judges will consider creativity, feasibility, and potential societal impact in their evaluations.

5. Originality and Plagiarism

  - All ideas and content presented must be original and free from plagiarism.
  - Citing sources and giving credit to any borrowed content is mandatory.

6 Visual Aids

- Participants are encouraged to use visual aids (such as slides) to enhance their presentations.
  - The use of multimedia, diagrams, and infographics can make ideas more accessible and engaging.

7. Registration

Participants should register for the event in advance, following the provided instructions. Vigyan Utsav is not just a platform for presentin ideas; it's an opportunity to shape the future with your innovative solutions. This event encourages creativity, problem-solving, and the application of knowledge to address real-world challenges. So, get ready to unleash your creativity and win exciting prizes.

DEBATE

Debate

A debate is a discussion or structured contest about an issue or a resolution. A formal debate involves two sides: one supporting a resolution and one opposing it. Such a debate is bound by rules previously agreed upon. Debates may be judged in order to declare a winning side. Debates, in one form or another, are commonly used in democratic societies to explore and resolve issues and problems. Decisions at a board meeting, public hearing, legislative assembly, or local organization are often reached through discussion and debate. Indeed, any discussion of a resolution is a form of debate, which may or may not follow formal rules (such as Robert's Rules of Order). In the context of a classroom, the topic for debate will be guided by the knowledge, skill, and value outcomes in the curriculum.
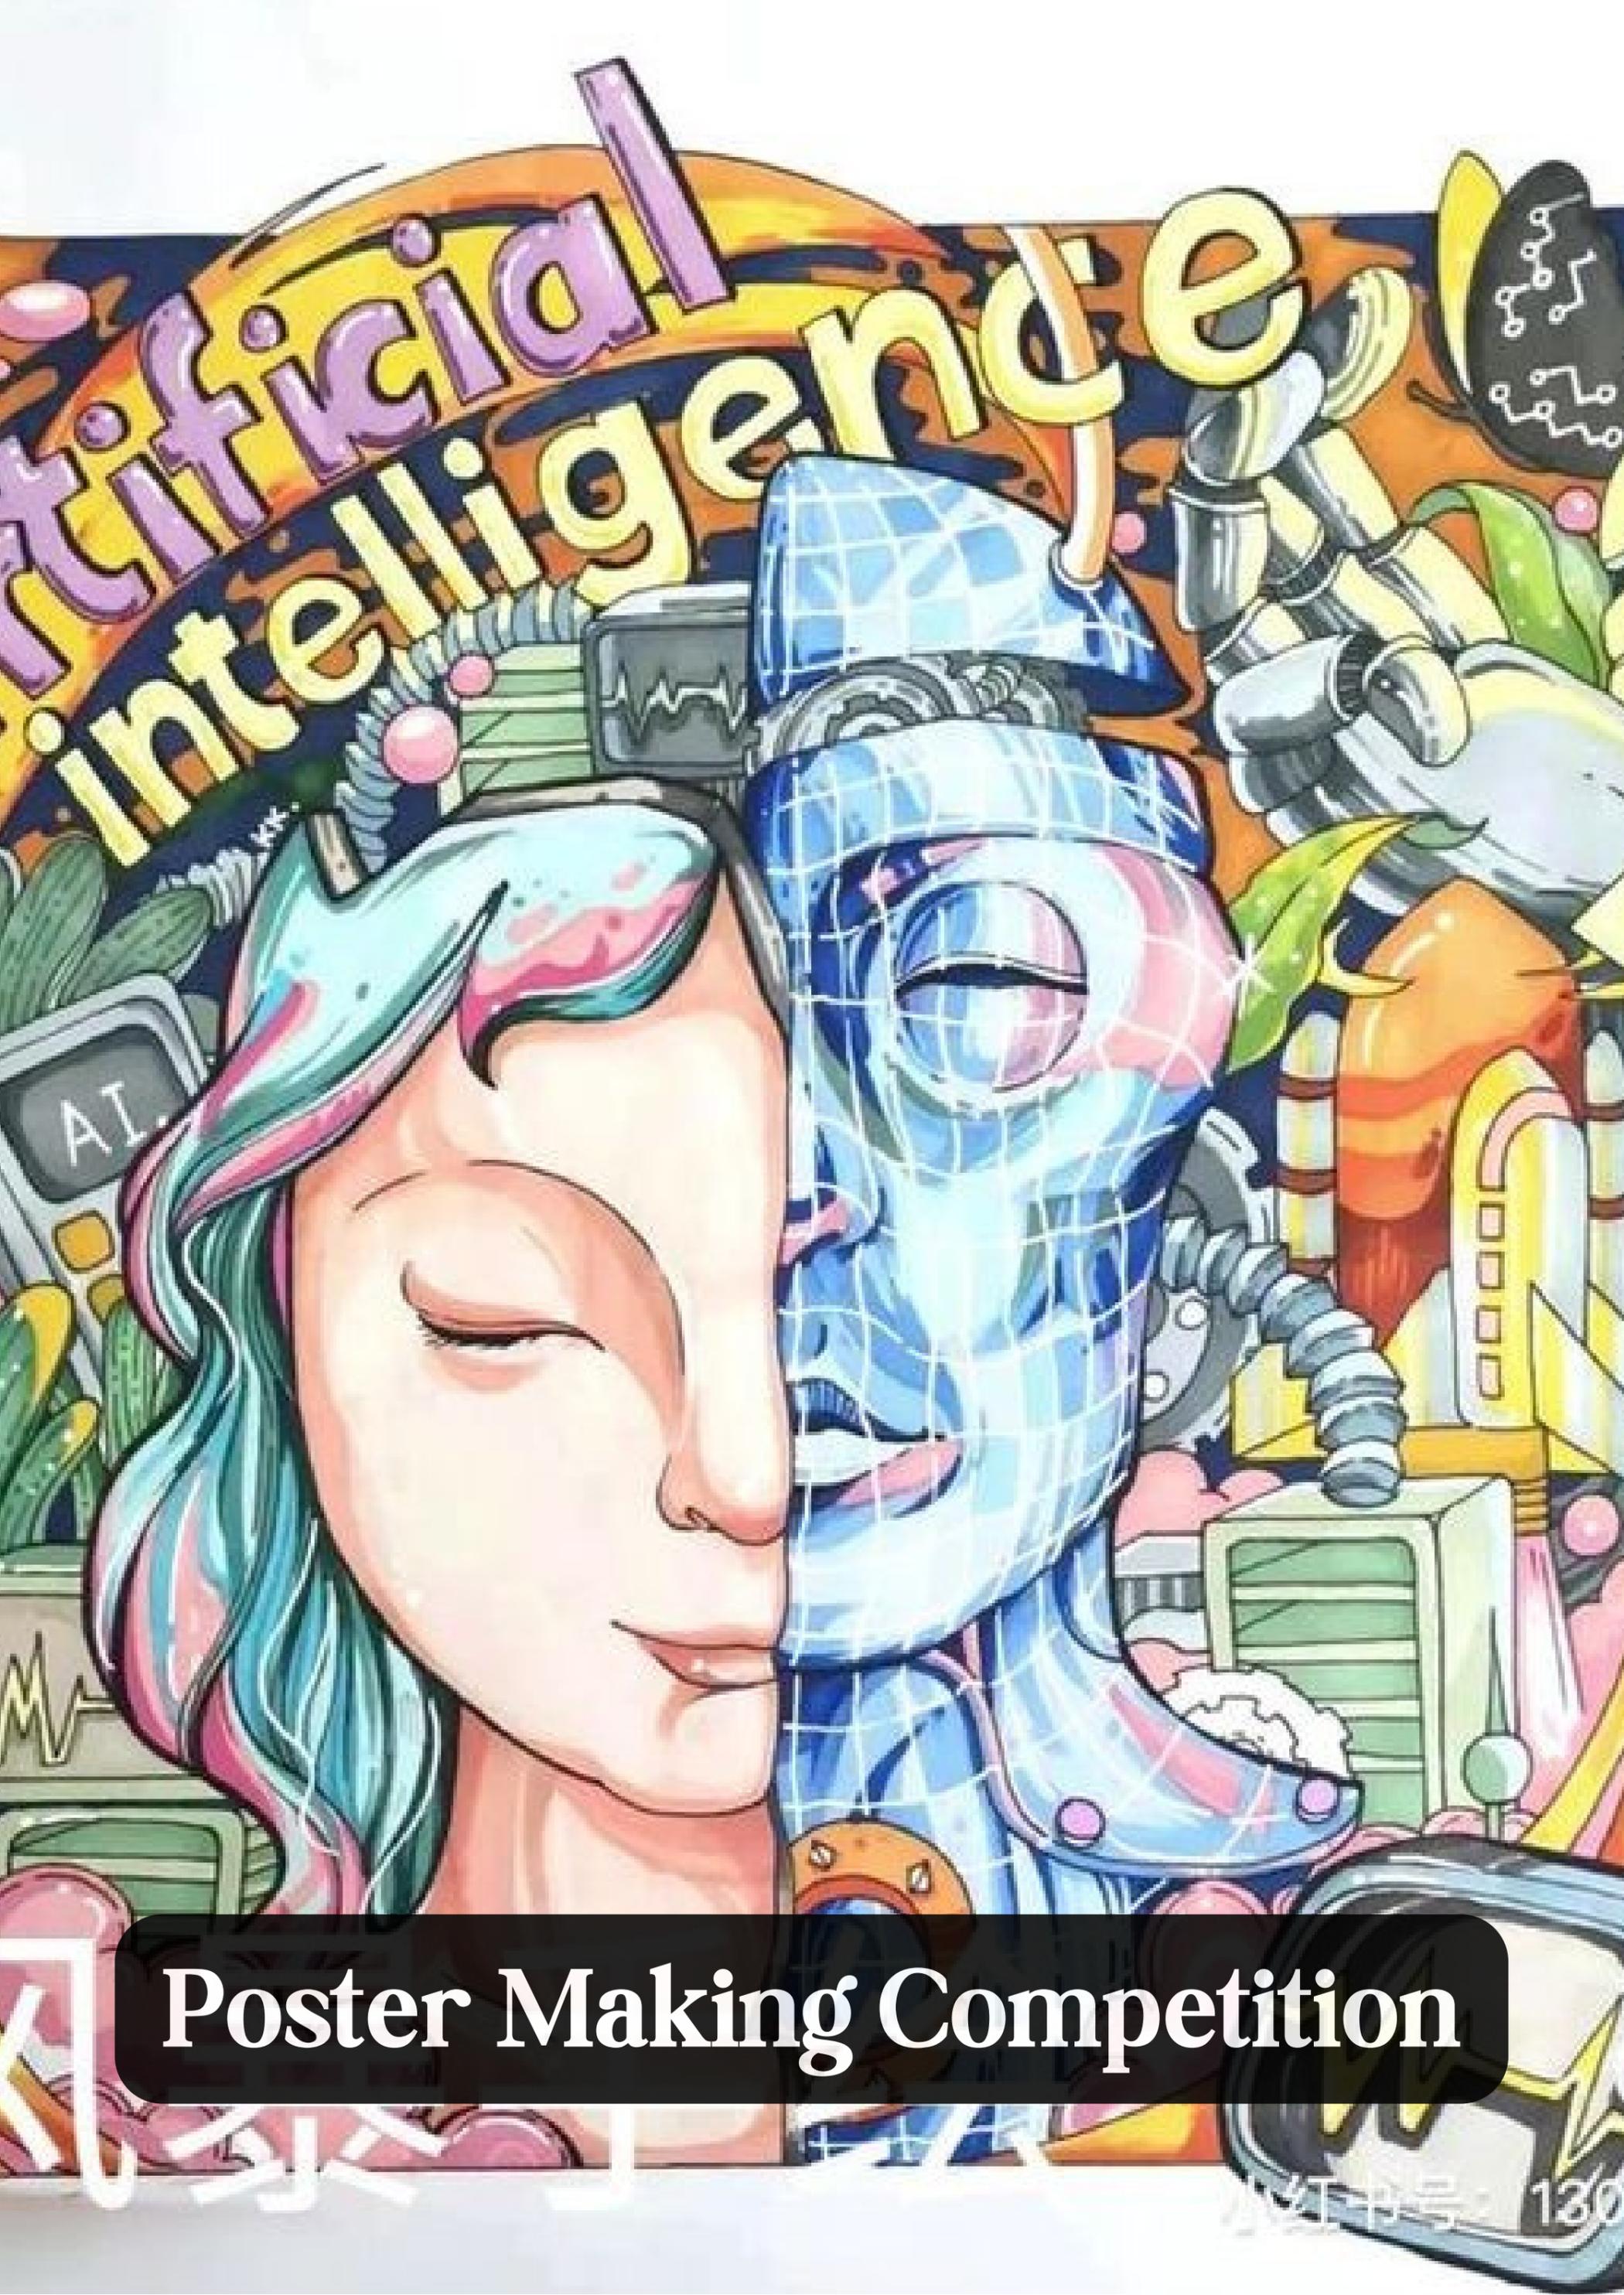

Important rules

· Time Duration for each participant: 3 min and 1 minute for answering questions (if any)
· The team supporting the motion must not shift its point of view. The same goes for the opposition, who must oppose the motion completely (whatever their private opinions may be).
· If a speaker makes a statement, they must be able to provide evidence or reasons to support the statement.
· Facts presented in a debate must be accurate.
· Speakers may not bring up new points in a rebuttal speech.

Judging

The winning team in a debate is usually decided on the basis of the quality of the debating, by a judge, or judges.

Topic for debate: Is artificial intelligence (AI) more of a boon than a threat to humanity?

Poster Making Competition

Poster Making Competition

Poster competitions raise awareness of issues and participation programs. Posters provide visual, colourful, simple ways to communicate community issues and events, and are suitable for display in community spaces.

DPGITM is organising a poster making competition for young innovators through event we celebrate the boundless creativity and imagination of young creaters where mines meet to create innovate and to capture a moving audience with a message

Date : **4th November, 2023**
Venue: **DPGITM, block A**

Guidlines for participants
- Participants have to bring their own stationary which includes colours, scissors, pencil etc.
-Sheets will be provided from the college.
 -only 2 hours will be provided
-The participants also have to present their poster among everyone and describe it.
-The winner will be decided on a basis of scoring by a panel of judges

ALL THE BEST!
