

Roll No.

57516

BBA 2nd Semester (N. S.) 2014-17

Examination – May, 2019

BUSINESS STATISTICS

Paper : BBAN-206

Time : Three Hours] [Maximum Marks : 80

Before answering the questions, candidates should ensure that they have been supplied the correct and complete question paper. No complaint in this regard, will be entertained after examination.

Note : Attempt *compulsory* Question No. 1 from Section – A and *four* questions from Section – B (One question from each Unit). All question carry equal marks.

SECTION – A

1. Briefly explain the following :

- (a) Importance of statistics
- (b) Objectives of classification
- (c) Harmonic mean
- (d) Measures of variation

57516-3,550-(P-3)(Q-9)(19)

P. T. O.

- (c) Rank correlation
- (f) Equation of Y on X
- (g) Consumer price index
- (h) Cyclical variations

SECTION – B

UNIT – I

- 2. Discuss the evolution, scope and applications of statistics.
- 3. Explain the meaning, types and advantages of tabulation. Also show the parts of a table.

UNIT – II

4. Find the values of arithmetic mean, median, Q_3 and mode for the following distribution :

x	5-15	15-25	25-35	35-45	45-55	55-65	65-75
f	12	18	28	42	20	12	8

5. Describe different measures of variation. Why is standard deviation the most widely used measure ?

UNIT – III

6. Explain the meaning, types and significance of correlation. Does it always signify cause and effect relationship ?

57516-3,550-(P-3)(Q-9)(19) (2)

https://www.haryanapapers.com

7. Obtain the regression equations for the following series :

X	71	89	75	80	56	76	92	88	49
Y	123	130	116	132	96	120	136	97	85

Estimate the value of (i) X if Y= 111 and (ii) Y if X = 79

UNIT - IV

8. From the following data, compute Laspeyre's, Paasche's, Fisher's and Marshal-Edgeworth price indices from the following data :

Commodity	P_0	q_0	P_1	q_1
A	6	50	10	56
B	2	100	2	120
C	4	60	6	60
D	10	30	12	24
E	8	40	12	36

Also find value index number.

9. Discuss the meaning and importance of time series analysis. Also describe the components of a time series.
